- **Vesting.** When you are “vested,” you have ownership of contributions, they are yours to take with you, into the next job or retirement. You are automatically vested in your own contributions and VA’s matching contributions from day one of VA employment. Employees are vested in the 1% automatic contribution after 3 years of VA service.
- **Low-cost, choice-based investing.** TSP features matching funds, tax-treatment options (pretax traditional/after-tax Roth), investment choices and portability so you control how much you contribute and where to invest. TSP annual administration fees of 0.06% (total expense ratio) are significantly lower than industry range of 0.2% to 5%. That is more money in your pocket to use when you retire.

Federal Employee Retirement System (FERS)

Become vested in FERS Basic/Defined Benefit pension after only five years of creditable civilian service.

Generous pension. Under the federal retirement system, your future pension benefits are funded through an automatic deduction from your salary and a matching contribution from VA each pay period. After retirement, monthly pension annuity payments are distributed for life.

Federal employees hired before January 1, 2013, fall under the original FERS program and contribute 0.8% of their salary to retirement. Those hired after that date fall into either the FERS-RAE (hired in calendar year 2013) or FERS-FRAE (hired in 2014 or later) and contribute either 3.1% or 4.4% to retirement, respectively. Employees under each of these programs receive the same retirement benefits. VA contributes 18.4% for FERS, 16.5% for FERS-RAE and 16.5% FERS-FRAE employees.

Long-term disability and death benefits. Become eligible for FERS disability retirement benefits (similar to long-term disability insurance coverage) and employee death benefits after 18 months of vested service. A federal employee's spouse may be eligible for the Basic Employee Death Benefit, which is equal to 50% of the employee's final salary (average salary, if higher), plus \$42,608 as of December 2024.

Survivor benefits. Become eligible for FERS survivor benefits plan after 10 years of vested service.

Age defined. Under age 62 the employee must have met their Minimum Retirement Age (MRA) between age 55-57 and they must have worked at least 10 years or greater under a retirement plan.

Benefits defined. You may be eligible for a monetary FERS supplement if you are less than 62 years old and reached your MRA with 30 years of service or age 60 with at least 20 years.

- Under 62 years old, the benefit is 1% of the highest 3 years of average salary for each year of service (conditions apply).
- Age 62 or older with 20+ years of service, benefit is calculated at 1.1% of the highest 3 years average salary for each year of service.
