

# Grow as a Clinician with VA

## JOIN OUR TEAM OF DEDICATED HEALTH PROFESSIONALS

Within VA's integrated health care system – which is the largest in the nation – you'll play a vital role in providing frontline medical services to Veterans. These jobs come with unique benefits not found in other health care systems, benefits that not only improve the satisfaction of the Veterans we serve, but also your own quality of life.

### Healthcare excellence begins at VA, and here are the reasons why:

#### VA is patient-centric

For anyone working in primary care, time to spend with your patients is considered a luxury. At VA, we make spending time with your patients the priority. If you're interested in truly learning what your patients need and having the time to make the best possible choices for them, VA can give you that time.

#### VA is team-based

Our patient-aligned care teams (PACTs) are the cornerstone of care at VA. Proactive and personalized, PACTs provide coordinated care through collaboration and take a positive approach to whole health. Whatever your clinical expertise, you'll be part of a cooperative team backed by a nationwide network of experts just like you.

#### VA is flexible

We know you value personal time to spend with your loved ones and pursue your interests. In addition to flexible schedules that can work around your life, you can earn 13 to 26 days of paid annual leave, as well as 13 sick days annually, with unlimited accumulation. We also celebrate 11 paid federal holidays and offer up to 12 weeks of paid parental leave.

#### VA is everywhere

If the time comes for you to relocate, there's no need to leave your VA career behind or sacrifice the benefits you've earned as part of our team. One active, unrestricted license allows you to work at any of our more than 1,300 facilities across all 50 states, the District of Columbia, and even some U.S territories.
